The Uni-Prox Advantage

- **Adaptable** - Allows for variable angle firing, will work with any size product and can attach to trusses, wood, or metal surfaces with two holding bolts.
- **Durable** - Unique high shock wave saddle swivel base can handle the harshest kickback forces. Stainless steel components for decades of use. The security of the system is well beyond any stresses from catastrophic failure.
- **Simple** - Just screw on a holder and set the angle for firing. That's it. Uni-Prox is fast and compact for shipping.
- **Smart** - One-time investment eliminates the countless one-use wooden fixtures, bottle carriers, bulky metal arches and zip ties.
- **Professional** - The look and results of consistent precise angles deliver a quality effect for close-prox, outdoor and theater & stage events.
